Dear Mr. Starry:

It is a pleasure for me to send you my autographed photograph as you requested.

I have read your comments with interest and I appreciate the kind remarks that you said about my brother.

Sincerely,

SIGNED

Allen W. Dulles
Director

"The Honorable"
Mr. Allen Dulles
Central Intelligence Agency
United States of America
Washington, D. C.

Dear Sir;

It is with Great Pride and Honor in having this opportunity of writing to one so Great as you. Having read the story in the American Weekly section of the Pittsburgh Press of July 3, 1960... has prompted me to write you this letter.

Being the director of one of the Most Important Intelligence Organization in the World, would I believe make you one of the most important men in these United States, and I know justly proud in holding this office. I know that your work never ceases, and I have Great Admiration and Praise for you Mr. Dulles and your entire staff.

With the World crisis, hatred and jealousy that is upon us, and with that big fat blubber mouthed rat of Khrushchev being in this country, no doubt has increased your worries and work two fold, has it not? If after his Official visit to the UN is over, I would inform him that any delay in his visit, he would be on his own as the United States could and would not guarantee his safety. And if, he plans to ever return on an Un-Official trip to go trout fishing as he says, someone might pull him out of the stream. We have some of the best trout fishing in the country in these parts, but K would not be safe here as there are too many expert deer hunters with high powered long range rifles that could and would knock the buttons off his coat from 100 or a mile or better away.

I have asked this question many times, but I have never received an honest to goodness answer, but perhaps you Mr. Dulles are in a better position to answer it than anyone. Why does these United States tolerate Khrushchev's insults and abuses. Who is he that one has to take this sort of thing from, and just how long must we continue to do so? No matter what question arises, he doesn't like it. He seems to arrange everything to suit himself. If he doesn't like what is said at various meetings, he gets up and walks out. Then of course we have to bow and apologize for hurting his feelings. Every paper one picks up, Russia is warning us on this and that. Why can't the United States get in the drivers seat for a change, and do some dictating to.

Are we, or are we not in a position to tell Russia or Red China off? Can or could we back up what we say, instead of talking to much?

Part Two.

Letter to Mr. Allen Dulles

In fact, you have said in an article that I've read, and I quote, that we talk to much, and tell Russia more than we should.

Is it not so that Russia has many rockets of all types, and the bases from which they can be fired as they see fit to do so. I don't believe America has any stockpile of rockets of any sort ready to use, or adequate bases from which to fire them from. We are always saying we will have this, or we will have that, by 1962 etc., but what are we supposed to be doing till then.

Russia has us outnumbered in a sub fleet, ready to strike our shipping etc. in short order. I know that we have the very latest subs, but are they ready with the deadly weapons that we need, should they have to use them.

And to, it is said that Russias airfleet is powerful and could give us a knockout blow in short order. That is what many are heard to say, that Khrushchev dictates the way he does, because he has the military power to back up what he says. I Sincerely hope and Pray, that we can say what we want to say to the World and mean what we say.

We have a very serious situation at our back door, Cuba. Do you think that Castro will attempt to take our Naval base there, and should he attempt such a move, would we shoot it out. Do you think that Russia would attempt to step in there, if such a case arrises? Having served in the U. S. Navy both in Peace and World War #2, I was in that base once at night, but I know nothing of the setup there. I am told that a river flows near the base that they depend on getting fresh water from, and that Castro could stop that if he wants to, is that correct. In this case could the base make fresh water from the salt water?

I have been, and always be interested in the welfare of these United States, and with our new administration coming up, I hope they start out with iron fist tactics. I always had Great Admiration for your Brother John Foster Dulles. He was one of the best Secretary's of State that we ever had. He was a real man the whole way thru. He is Truly missed. He was very kind to acknowledge a letter of mine, and send me an autographed photo of himself. These have been placed in my Special Albums of Famous and Important people of these United States, and of the World. I Honestly and Truly hoped that Mr. Dulles would have lived to see the New Administration in Office, as I'm confident that he would be one of the members. He had never backed down at any time, and he never aimed to.

Being the Great man you are in yourself Mr. Allen Dulles, and Truly being

Part Three.
Letter to Mr. Allen Dulles

a Member of one of the Greatest families of these United States. I can only Truthfully say that we need more of your kind in our Government. I ask if you will, to please send me an autographed photo of yourself, that I may place same with that of your Brother in my Special Album.

I have been in Washington, D. C. several different times, but for brief visits. Some day I want to come there, and to visit some Great places of importance, and to visit a few Great people, namely, Allen Dulles, and J. Edger Hoover. I Trust that I can have this Honor some day.

With hopes that I shall have pleasure of receiving your kind and personal reply to my letter.

Yours, Respectfully,
Keep up the Good work, Make our
Nation safe. Tighten our Security.

George C. Starry
